EDUCATION

Poornima University

Bachelor of Technology in Computer Science | CGPA: 6.5

Jaipur, India

August 2022- July 2026

Description

Enthusiastic Computer Science undergraduate with a passion for building efficient, user-focused software. Experienced in full-stack development, object-oriented programming, and collaborative coding environments. Strong academic background in computer systems, data analysis, and algorithm design, with project experience using technologies like React, Node.js, and SQL. Always eager to learn, grow, and contribute to innovative tech solutions.

SKILLS SUMMARY

- **Programming Languages:** C, JAVA, Python, SQL
- **Development:** HTML, CSS, JavaScript, Reactjs, Nodejs, Bootstrap, Tailwind CSS ,
- **Tools & Platforms :** GitHub, Postman, Visual Studio Code, IntelliJ IDEA ,Net Bean, MYSQL
- **Soft Skills:** Problem-Solving, Communication, Teamwork, Creative Thinking, Time Management, Team Management
- **Software Development:** Object-Oriented Programming(OOPS), Data Structures & Algorithms(DSA).

Projects

Hotel Management System

- **Description :-** A web-based application that automates hotel operations such as room booking, customer management, billing, and payments. The system allows admins, staff, and customers to manage reservations, check availability, and process payments efficiently. It ensures a smooth and organized workflow for hotel management
- **Technologies :-** Java (Servlets, JSP), MySQL , Java swing, AWT, Apache Tomcat, XAMPP.

Online Banking System

- **Description :** - A secure web application for managing bank accounts, transactions, and customer profiles.
- **Technologies :-** Java (Spring Boot), MySQL, Hibernate, HTML, CSS, JavaScript, JWT (for security).

Portfolio Website

- **Technologies:-** HTML, CSS, JavaScript, React
- **Description :-** A responsive portfolio website that showcases my projects, skills, and achievements. It includes an interactive UI, animations, and a contact form.

CERTIFICATIONS

IBM Introduction to Web Development |

- Mastered the most up-to-date practical skills and tools that full-stack developers use in their daily roles.

NPTEL Introduction to Internet of Things|

- Acquired knowledge in IoT architecture, protocols, and applications, enabling the design and deployment of connected devices and systems.
- Learned how devices connect, and their real-world uses.
- **Postman API Fundamentals Student Expert – Postman**
- **Python 101 for Data Science - IBM**
- JS Webinar at CodeXcelerate
